

THE STRONG FOUNDATION TO BUILD YOUR PROJECT ON SOLID GROUND

Salve Regina University Jazzman Café

This glass and stone addition to the O'Hare academic facility is situated on Newport's Historic Cliff Walk.

The design and construction of this addition allowed the opportunity for all patrons and visitors a panoramic view of the Atlantic Ocean. The design is not only pleasing from within the addition and its outside terrace, but the openness of the design brings these spectacular views into the main lobby of this academic center.

Construction included structural steel, limestone wall panels and low e-glass systems. Landscape components included ADA ramps leading to the sprawling ocean front lawn.

Approx. value \$ 500,000
